

Country Law Firm Program

The Association has established the Country Law Firm Member Benefit Program as a specific member benefit in the area of legal services. Members will have access to regionally accessible legal advice, at competitive rates, from firms with a real commitment to rural issues and communities. The program is an additional, separate and complementary program to the limited free internet legal advice currently available to Association members.

Under the Program, members will now have access to a panel of law firms with a genuine interest in rural and farming issues, located in regional areas across the State. Most of the firms participating in the Program are Law Society Best Practice Firms and/or Law Society accredited specialists.

These participating firms have agreed to offer members, upon presentation of their Association membership card, a discount off their standard hourly rates.
